

YOUR SINGLE SOURCE FOR BESPOKE IT SOLUTIONS

Overall IT solutions

About the x-tention group

We provide individual software and service solutions for healthcare and industry. Our international companies draw on a comprehensive portfolio of services that cover consulting, software, implementation and operations.

The x-tention group includes the companies x-tention Informationstechnologie GmbH, soffico GmbH, InterComponentWare AG, FAKTOR D consulting GmbH and it for industries GmbH. We have over 500 skilled employees at our offices in Austria, Germany, Switzerland, Thailand, the UK and the US who support more than 900 satisfied customers all over the world.

Our expertise: Ideal solutions for your application needs

The x-tention group provides its own integrated solutions for digital data exchange. We offer various consulting services, system integration, software development and implementation, and the operation of data centres and applications.

We have been supporting our customers on their own digitalization journeys for over 20 years. From consulting and software development to implementation and operation, we're there to support all processes, advising our customers during every phase of developing their IT infrastructure.

Our USP: We are a one-stop shop

The x-tention team develops bespoke customer solutions, drawing on experience in healthcare and social services and a comprehensive range of products and services. 'We bring together all our expertise in software, hardware, processes and services to deliver custom solutions,' says managing director and company founder Herbert Stöger, describing the group's USP.

Our maxim: IT with care

x-tention harmonizes and integrates different IT systems in healthcare and industry, enabling our customers to focus fully on their core business. x-tention is a byword for custom service offerings from IT planning and software solutions all the way through to IT operation. 'Our customers and partners – and their goals – are at the forefront of everything we do. They benefit from the quality of our software, our services and our customer support. Every day we live according to our maxim, "IT with care";' says director Wolfgang Pramendorfer, explaining the company's strategy.

'We bring together all our expertise in software, hardware, processes and services to deliver custom solutions.'

Our expansion

Stable, international and cross-sector growth

x-tention is a successful IT company that has continued to grow and expand since it was founded in 2001. Initially there were only seven members in the team headed by managing director Herbert Stöger. With specialized services and continuously growing expertise in healthcare and social services, x-tention established itself as one of the market leaders for medical data exchange.

Over 900 customers worldwide

More than 500 employees

20 years of experience

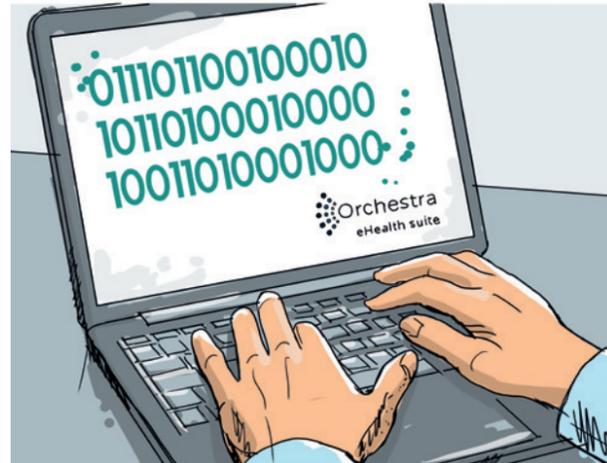

Our portfolio covers four core areas: consulting, software, implementation and operation

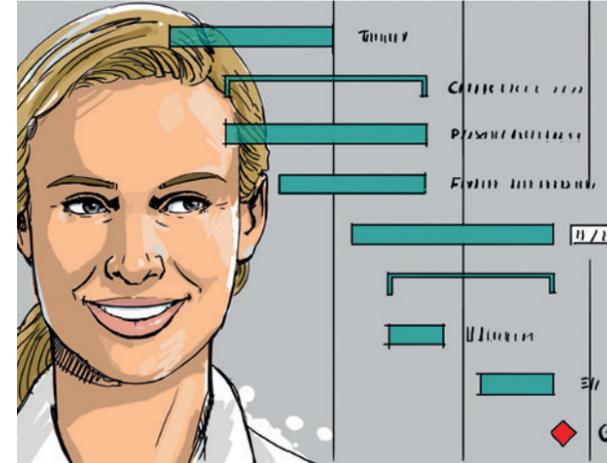

Consulting

We support you in your IT projects as an independent consultant with many years of experience. We use our expertise to help you refine your IT strategies and digital processes, making them more efficient. In addition, our experts offer a wide range of services in information security and data protection.

Software

We develop and market powerful off-the-shelf products and custom software solutions for your application needs. Our cross-sector solutions enable swift integration, high scalability, security and innovation.

Implementation

We guide your implementation project to success. Our experts enable you to implement new solutions and interfaces in all common IT structures.

Operation

We take care of your IT operation professionally and securely, around the clock. Our experts control your applications, are the first point of contact for queries and are on hand as reliable service partners during ongoing operation.

x-tention

IT with care.

Herbert Stöger founded x-tention, with headquarters in Wels, Austria, in 2001. The company positioned itself as one of the leading IT service providers in the healthcare sector by acquiring specialized partners from software development and IT consulting. In addition to Wels and Vienna, x-tention has other Austrian branches in Graz, St Peter in der Au, Salzburg and Klagenfurt.

Its own portfolio focuses on individual services for hospitals, health insurance companies, service providers and patients. x-tention helps its customers to develop digitalization strategies, implements and operates its own IT solutions and supports customers with expert consulting.

International x-tention locations

Swiss subsidiaries in Bern and Zurich, and German ones in Augsburg and Berlin join the head office in Wels in strengthening x-tention's presence on the eHealth market in the DACH region. There are further international locations in Bournemouth, UK and Bangkok, Thailand.

Email: info@soffico.de

soffico started developing Orchestra software in 2007. The Orchestra communication server is not only used by big-name customers in business and industry but also in the healthcare sector. soffico has been part of the x-tention group since 2016. Its headquarters in Augsburg are supported by branches in Berlin, Vienna and Bangkok.

By tailoring applications and IT systems to ensure a precise fit, Orchestra enables data to be exchanged in real time, thereby overcoming one of the fundamental challenges of the digital transformation. The platform has many different applications, is user friendly and provides top-level data security. In addition, the solution is reliable and offers high scalability. With Orchestra software and the Orchestra Academy, customers become the conductors of their data.

InterComponentWare

Technology for health.

Email: info@icw-global.com

The internationally experienced team at ICW has been successfully developing future-proof software solutions for IT-based collaboration between healthcare professionals and their patients since 1998. In 2019, ICW became part of the x-tention group, enjoying market success with the other companies.

ICW's customers include innovative hospitals of various sizes and with various operators, as well as international healthcare companies. At their headquarters in Walldorf, software experts develop powerful and mutually compatible modules that make up the Orchestra eHealth Suite. These enable medical data to be exchanged between service providers securely and efficiently and allow patients to become actively involved in the treatment process.

FAKTOR D consulting

We multiply your business success.

Managing director:
Dr. Oliver Janzen

Address in Germany:
FAKTOR D consulting GmbH
Bürgermeister-Wegele-Strasse 12
86167 Augsburg
Germany
Phone: +49 821 455 902 100
Email: info@xd-consulting.de

FAKTOR D has been advising companies in healthcare and industry on their digital transformation since 2018, helping them build their capacity to innovate and making them more agile. FAKTOR D consultants support their customers in further developing their IT and digital organizations so that digital transactions can be realized as effectively as possible. As well as its headquarters in Augsburg, FAKTOR D has locations in Berlin and Oberhausen. It was founded in 2018 as a management consultancy within the x-tention group.

FAKTOR D focuses on the current major topics in IT-related management consulting: digital and IT strategy, digitalization and digital transformation. FAKTOR D's Digital Transformation Business Framework is a useful methodology that enables you to approach and structure digitalization projects in an integrative manner. Using this framework as a basis, our experienced consultants and project managers help customers develop the right IT strategy, plan its implementation and manage subsequent transformation programmes. The FAKTOR D team is passionate about deciphering and solving complex issues, especially when it comes to the human factor.

it for industries

wheel to succeed.

Managing director:
Thomas Morisak

Address in Austria:
it for industries GmbH
Römerstrasse 80a
4600 Wels
Austria
Phone: +43 7242 2155
Email: office@itforindustries.at

Based in Wels, Austria, it for industries has been developing software solutions for industrial SMEs for over 30 years. It has been part of the x-tention group since 2018. The company advises customers on how to implement their digitalization projects and develop digital processes and business models. The it for industries experts create sustainable, scalable solutions using their expertise in technical implementation and essential process knowledge.

As a digitalization partner, it for industries helps customers to plan and design a digital roadmap. It then uses the roadmap to help define and implement measures and projects, providing support in the form of software solutions.

With its Digital Business Platform, it for industries creates a central IT ecosystem that links systems intelligently, mapping and automating processes from beginning to end. The platform is used for setting up ERP systems, harmonizing IT landscapes, implementing industry 4.0 scenarios and automating planning processes by applying artificial intelligence.

Success stories

Let our customers speak for themselves.

We are proud of how the x-tention group supports internationally renowned players in healthcare and industry, ensuring the success of their digitalization processes. Each company and sector has its own individual challenges and requirements, and all of them need forward-thinking ideas. Our experience from numerous projects and long-standing business relationships allows us to understand complex requirements and develop the ideal solution for every objective.

VOITH

Martin Litsch
Chairman of the board, German Federal Association of Public

'In our opinion, connecting the various stakeholders in the healthcare sector will have a positive effect on the care received by our members. We have chosen the x-tention group as our partner for implementing our digital health network and developing the electronic patient record – not least because of their many years of experience working on national and international networking projects.'

Oliver Reinhard
Head of the Centre for Information and Medical Technology
(ZIM), Heidelberg University Hospital

'When it comes to implementing our PEPA (personal, cross-institution patient record), the x-tention group is our ideal partner for exchanging treatment-related information between cooperating institutions at Heidelberg University Hospital while involving the patient.'

Mag. Dietbert Timmerer
Managing director and director of administration
Wels-Grieskirchen Hospital

'Wels-Grieskirchen Hospital has been a customer and partner from the beginning. We value how x-tention works with us to develop our IT solutions and then maintains and operates them securely. x-tention's sector expertise brings us continued benefits.'
