

INDIVIDUAL SOFTWARE AND SERVICE SOLUTIONS

Overall IT solutions

About the x-tention group

We provide individual software and service solutions for healthcare and industry. Our international companies draw on a comprehensive portfolio of services that cover consulting, software, implementation and operations.

The x-tention group comprises the companies x-tention Informationstechnologie GmbH, soffico GmbH, FAKTOR D consulting GmbH, it for industries GmbH and Cloud21 Ltd. With over 600 highly trained staff at our locations in Austria, Germany, Switzerland, the UK and the USA, we support more than 1,000 satisfied clients worldwide.

Our expertise: Ideal solutions for your application needs

The x-tention group provides its own integrated solutions for digital data exchange. We offer various consulting services, system integration, software development and implementation, and the operation of data centres and applications.

We have been supporting our clients on their own digitalization journeys for over 20 years. From consulting and software development to implementation and operation, we're there to support all processes, advising our clients during every phase of developing their IT infrastructure.

Our USP: Many solutions – one source

The x-tention team develops bespoke customer solutions, drawing on experience in healthcare and social services and a comprehensive range of products and services. 'We bring together all our expertise in software, hardware, processes and services to deliver custom solutions,' says managing director and company founder Herbert Stöger, describing the group's USP.

Our maxim: IT with care

x-tention harmonizes and integrates different IT systems in healthcare and industry, enabling our clients to focus fully on their core business. x-tention is a byword for custom service offerings from IT planning and software solutions all the way through to IT operation. 'Our clients and partners – and their goals – are at the forefront of everything we do. They benefit from the quality of our software, our services and our customer support. Every day we live according to our maxim, "IT with care",' says director Wolfgang Pramendorfer, explaining the company's strategy.

'We bring together all our expertise in software, hardware, processes and services to deliver custom solutions.'

Our expansion

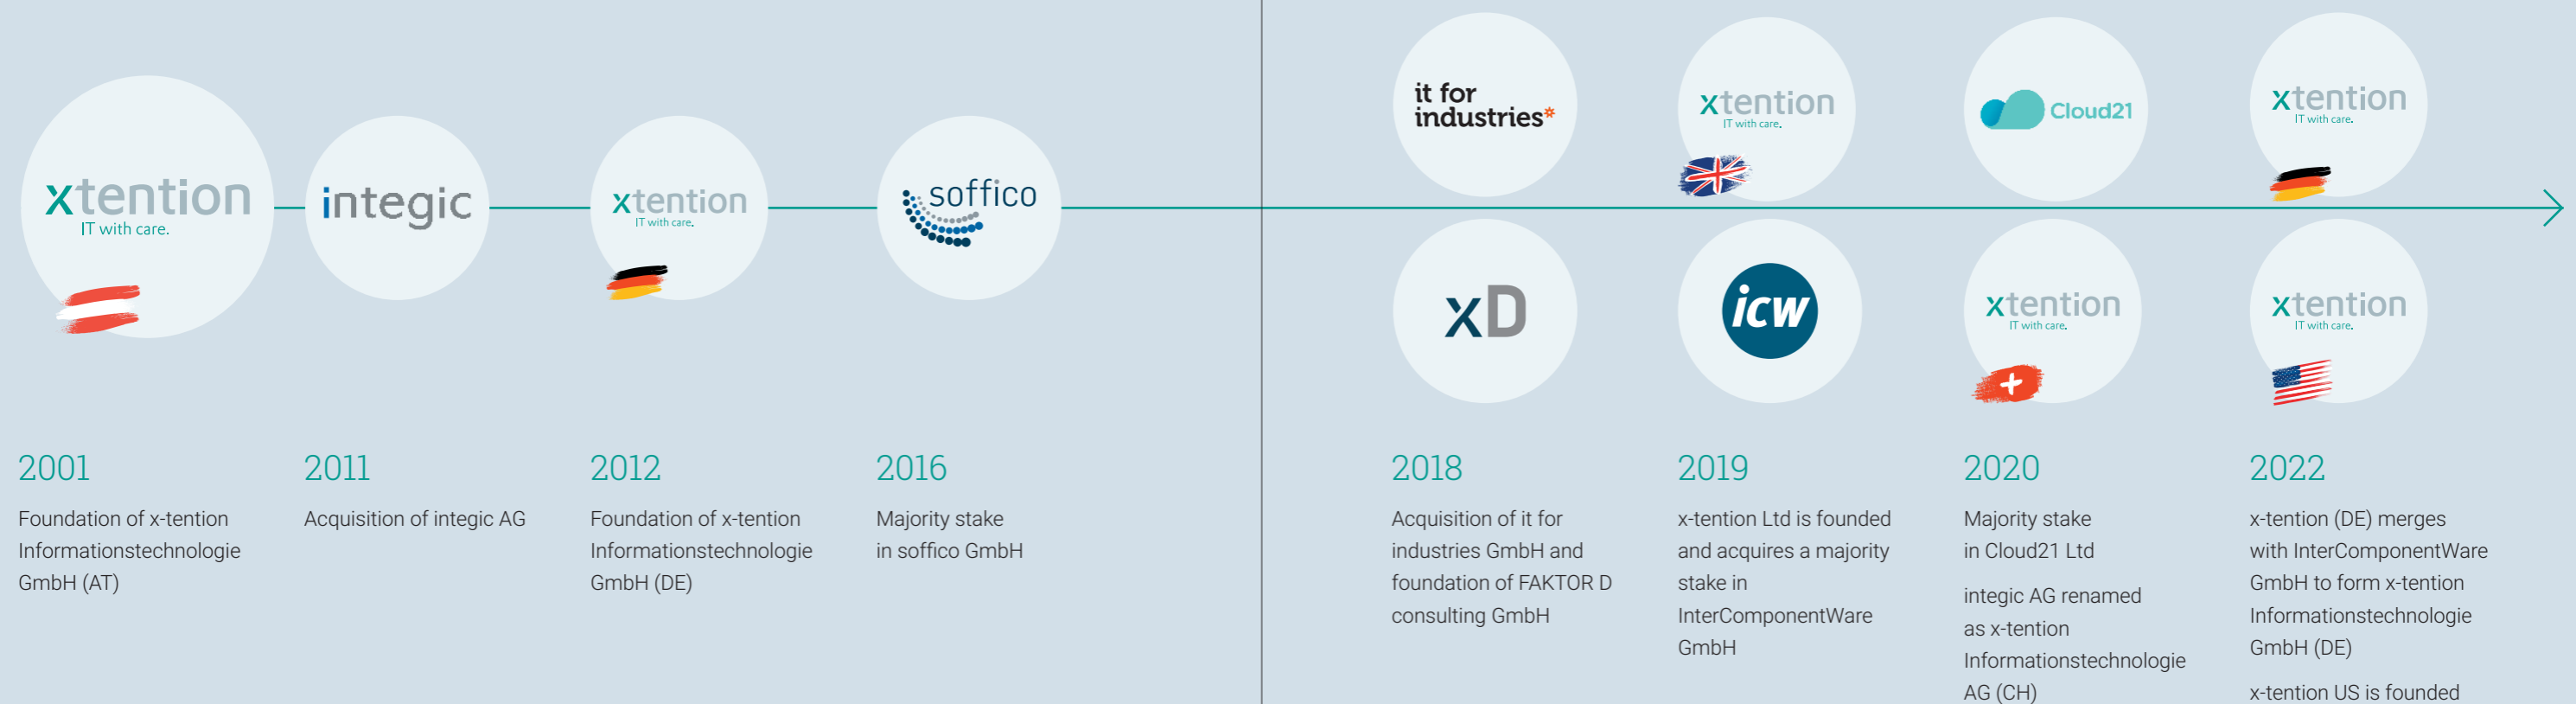

Stable, international and cross-sector growth

x-tention is a successful IT company that has continued to grow and expand since it was founded in 2001. Initially there were only seven members in the team headed by managing director Herbert Stöger. With specialized services and continuously growing expertise in healthcare and social services, x-tention established itself as one of the market leaders for medical data exchange.

Over 1,000 clients worldwide

More than 600 employees

20+ years of experience

Our portfolio covers four core areas: consulting, software, implementation and operation

Consulting

We support you in your IT projects as an independent consultant with many years of experience. We use our expertise to help you refine your IT strategies and digital processes, making them more efficient. In addition, our experts offer a wide range of services in information security and data protection.

software

We develop and market powerful off-the-shelf products and custom software solutions for your application needs. Our cross-sector solutions enable swift integration, high scalability, security and innovation.

Implementation

We guide your implementation project to success. Our experts enable you to implement new solutions and interfaces in all common IT structures.

Operation

We take care of your IT operation professionally and securely, around the clock. Our experts control your applications, are the first point of contact for queries and are on hand as reliable service partners during ongoing operation.

x-tention Austria

IT with care.

MANAGING DIRECTORS, X-TENTION AUSTRIA:
Herbert Stöger (left) and Wolfgang Pramendorfer

Herbert Stöger founded x-tention, with its headquarters in Wels, Austria, in 2001. The company positioned itself as one of the leading IT service providers in the healthcare sector by acquiring specialized partners from software development and IT consulting. In addition to Wels and Vienna, x-tention has other Austrian branches in Graz, St Peter in der Au, Salzburg and Klagenfurt.

Its own portfolio focuses on individual services for hospitals, health insurance companies, service providers and patients. x-tention helps its clients to develop digitalization strategies, implements and operates its own IT solutions and supports customers with expert consulting.

x-tention Switzerland

**MANAGING DIRECTOR OF X-TENTION
SWITZERLAND:** Thomas Bähler

x-tention Switzerland has provided tailored eHealth products for hospitals, psychiatric institutions, rehabilitation clinics, nursing and retirement homes, laboratories and other service providers since 2001. x-tention has integrated extensive services into its portfolio, including connecting hospital groups, continuing to develop secure digital communication between service providers and their patients, and developing electronic patient records.

x-tention international

MANAGING DIRECTORS OF X-TENTION UK AND X-TENTION US:
Benedikt Aichinger, Tony Corkett

Headquartered in the UK, x-tention international supports x-tention group projects outside of the DACH region. The team is responsible for managing our global partnerships and international subsidiaries in the UK and US.

x-tention international's portfolio covers strategy development, interoperability, cybersecurity, technology services and implementation. We implement the x-tention group's entire product and service portfolio in selected markets and actively seek to expand it by adding innovative applications.

soffico

Become the conductor of your data.

MANAGING DIRECTORS OF SOFFICO:
(left to right) Harald Wenger, Prof. Dr Bernd Hafenrichter, Thomas Müller

soffico started developing Orchestra software in 2007. The Orchestra communication server is not only used by big-name customers in business and industry but also in the healthcare sector. soffico has been part of the x-tention group since 2016. Its headquarters in Augsburg are supported by branches in Berlin, Vienna and Bangkok.

By tailoring applications and IT systems to ensure a precise fit, Orchestra enables data to be exchanged in real time, thereby overcoming one of the fundamental challenges of the digital transformation. The platform has many different applications, is user friendly and provides top-level data security. In addition, the solution is reliable and offers high scalability. With Orchestra software and the Orchestra Academy, clients become the conductors of their data.

FAKTOR D consulting

We multiply your business success.

Managing director: Dr Oliver Janzen

FAKTOR D has been advising companies in healthcare and industry on their digital transformation since 2018, helping them to build their capacity to innovate and making them more agile. FAKTOR D consultants support their clients in further developing their IT and digital organizations so that digital transactions can be realized as effectively as possible. As well as its headquarters in Augsburg, FAKTOR D has locations in Berlin and Oberhausen. It was founded in 2018 as a management consultancy within the x-tention group.

FAKTOR D focuses on the current major topics in IT-related management consulting: digital and IT strategy, digitalization and digital transformation. FAKTOR D's Digital Transformation Business Framework is a useful methodology that enables you to approach and structure digitalization projects in an integrative manner. Using this framework as a basis, our experienced consultants and project managers help clients develop the right IT strategy, plan its implementation and manage subsequent transformation programmes. The FAKTOR D team is passionate about deciphering and solving complex issues, especially when it comes to the human factor.

it for industries

wheel to succeed.

Managing director: Thomas Morisak

Based in Wels, Austria, it for industries has been developing software solutions for industrial SMEs for over 30 years. It has been part of the x-tention group since 2018. The company advises clients on how to implement their digitalization projects and develop digital processes and business models. The it for industries experts create sustainable, scalable solutions using their expertise in technical implementation and essential process knowledge.

As a digitalization partner, it for industries helps clients to plan and design a digital roadmap. It then uses the roadmap to help define and implement measures and projects, providing support in the form of software solutions.

With its Digital Business Platform, it for industries creates a central IT ecosystem that links systems intelligently, mapping and automating processes from beginning to end. The platform is used for setting up ERP systems, harmonizing IT landscapes, implementing industry 4.0 scenarios and automating planning processes by applying artificial intelligence.

Cloud21

Delivering the potential of digital

Directors: James Cooper (left) and Michael Beckett

Cloud21 has been working in the British healthcare sector for over ten years. It develops digital transformation strategies and provides consulting on current guidelines. In addition, the experts provide various IT security services, support the implementation of new IT solutions and manage IT system upgrades for clients ranging from small companies to a £1 billion programme for ten hospitals. The target group for Cloud21's services is the entire health and care system in the UK, plus international companies. Cloud21 has developed an extensive portfolio of services and IT solutions that meet the needs of its clients in the NHS, the health and social care system, local authorities and the education sector as effectively as possible. This portfolio is based on a combination of professional and managed services, consulting, software and complex technological solutions.

Success stories

Let our clients speak for themselves.

We are proud of how the x-tention group supports internationally renowned players in healthcare and industry, ensuring the success of their digitalization processes. Each company and sector has its own individual challenges and requirements, and all of them need forward-thinking ideas. Our experience from numerous projects and long-standing business relationships allows us to understand complex requirements and develop the ideal solution for every objective.

AOK
Die Gesundheitskasse.

UniversitätsKlinikum Heidelberg

Klinikum
Wels-Grieskirchen

'In our opinion, connecting the various stakeholders in the healthcare sector will have a positive effect on the care received by our members. We have chosen the x-tention group as our partner for implementing our digital health network and developing the electronic patient record – not least because of their many years of experience working on national and international networking projects.'

Martin Litsch
 Chairman of the board, German Federal Association of Public Health Insurance Funds (AOK-Bundesverband)

'When it comes to our PEPA (personal, cross-institution patient record), the x-tention group is our ideal partner for exchanging treatment-related information between cooperating institutions at Heidelberg University Hospital while involving the patient.'

Oliver Reinhard
 Head of the Centre for Information and Medical Technology (ZIM), Heidelberg University Hospital

'Wels-Grieskirchen Hospital has been a client and partner from the beginning. We value how x-tention works with us to develop our IT solutions and then maintains and operates them securely. x-tention's sector expertise brings us continued benefits.'

Mag. Dietbert Timmerer
 Managing director and director of administration Wels-Grieskirchen Hospital
